

Source Water Protection: Restricted Land Use (Section 59) Review Form

Completion of this screening review form is required for planning and/or building permit applications on properties located within Wellhead Protection Areas that are subject to Section 59 Restricted Land Use in the *Clean Water Act, 2006*. Please consult with the CBO or Area Planner to determine if your property is within such an area. In these areas, a notice from the Risk Management Office is required for a planning and/or building permit application to be deemed complete. Completion of this form is not required if the planning or building permit application is exclusively for residential use/development.

Have you received a Section 59 Notice from the Risk Management Official for a previous planning or building permit application for the same project on the same property? ☐ Yes ☐ No
